AN ENCHANTING ADVENTURE FILLED WITH WONDERFUL LESSONS!

WESTERN AUSTRALIAN EARLY YEARS PROGRAM

Subjects from the Western Australian Early Years Program will lead our little explorers into a magical fairy tale world through diverse learning themes. Each lesson unlocks a new enchanted land, helping children develop English skills, spark their imagination, strengthen social abilities, and nurture a love for books.

VIETNAMESE

The Vietnamese program of Summer Camp 2025 will help students develop clear communication skills, expand their Vietnamese vocabulary, explore literary works, and become familiar with writing, numbers, and basic calculations.

HEALTH AND PHYSICAL EDUCATION

Students will learn basic concepts about the body, develop motor skills, and understand how to improve their health through sports, life skills activities, and outdoor play.

ARTS

Creativity, imagination, and musical appreciation will be deeply inspired through diverse artistic activities. By expressing themselves through various forms of art, children will build confidence, develop an aesthetic sense, and enjoy the magic of storytelling.

TECHNOLOGIES

Children's logical thinking, problem-solving skills, and technological abilities will be enhanced through engaging activities such as building with Lego and Magblox, creating with 3D pens, learning basic programming through coding with robots, and practicing fundamental coding on iPad applications. All learning content is designed to be age-appropriate for early childhood education.
